

Dear Parents,

Welcome to Summer Camp 2020!

Here at KIDS we believe that this will be a very special and much needed summer experience for all. However, in many ways, this will be a very different summer. With our #1 priority being the safety and health of our campers, families, and staff we have developed new policies and procedures to help ensure this. Please review our **Covid-19 Summer Camp Policies and Procedures**. These follow and exceed the current CDC and state/local guidelines and will be updated to incorporate any new information from these agencies if not currently addressed.

Additionally, programming will be revised to allow for smaller group sizing and greater distancing. For example, we will be replacing close contact activities like flag football with activities that can provide greater individual distancing such as golf. Many of our summertime favorites, including soccer, kickball, and basketball will remain with game/activity revisions. Other activities (pedal karts, arts-n-crafts, dance, karate, animal shows, and special event days) can continue with little to no changes necessary. For all activities, our hand sanitizing and disinfecting procedures will be strictly followed.

At this time, given the current guidelines, we will be revising and curtailing certain water activities. Water slides will not be allowed, sprinkler parks and other non-shared water activities will. However, creativity will allow for us to continue with lots and lots of water fun and Cooling Stations will be setup so that our campers and staff can catch a refreshing break as needed. We will also be pausing our towel service for summer 2020 to avoid potential sharing (they're all identical). Please send in a towel each day in your child's backpack labeled with their name.

Lunch will continue to be provided with multiple daily choices as well as our popular weekly barbeque and pizza days. All kitchen and camp staff will be utilizing appropriate PPE, lunches will be individually packaged, and lunch periods adjusted to provide for fewer children and greater individual distancing.

With these many changes, what will always remain is the **FUN!**

If you have any questions, please do not hesitate to call. Given the smaller group sizes this year we may fill up quickly for peak days/weeks and we are now seeing a dramatic increase in inquiries as our communities and economy begins to open up.

We look forward to seeing you soon and providing for your family a healthy and safe camp experience!
